6.	Assessment Criteria	14
7.	Trade Syllabus	23
	Annexure I(List of Trade Tools & Equipment)	58
	Annexure II (List of Trade experts)	70

During the two-year duration, a candidate is trained on subjects- Professional Skill, Professional Knowledge, Engineering Drawing, Workshop Calculation &Science and Employability Skills related to job role. In addition to this, a candidate is entrusted to make/do project work and Extra Curricular Activities to build up confidence. The practical skills are imparted in simple to complex manner & simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task. The broad components covered under Professional Skill subject are as below:

FIRST YEAR: This year will cover the safety aspect in general and specific to the trade, identification of tools & equipment, raw materials used. The trainee will perform Measuring & marking by using various Measuring & Marking tools. The trainee will be able to plan and perform basic fastening and fitting operations. Familiarize with basics of electricity, test and measure the electrical parameter. Skilling practice on maintenance of batteries being done. He will practice making various welding joints by using Arc and gas welding, trace and identify various hydraulics and pneumatics components and identify components in Air and Hydraulic Brake system.

The candidate will be able to dismantle Diesel Engine of LMV as per given standard procedures. Able to achieve skill on Overhauling of Cylinder Head, valve train, Piston, connecting rod assembly, crankshaft, flywheel and mounting flanges, spigot and bearings, camshaft etc. practice reassembling all parts of engine in correct sequence as per workshop manual. Perform testing on engine. Also the trainee practice on repair and maintenance of Cooling, lubrication, Intake & Exhaust system of Engine. Perform maintenance of diesel fuel system, FIP, Governor and monitor emission of vehicle. Practice on repair, maintenance and overhaul of Starter, alternator and perform Execute troubleshooting in engine of LMV/HMV.

SECOND YEAR:In the second year, the trainee will learn to perform overhauling of light vehicle/Heavy Vehicle transmission units including Gear box, Single plate clutch assembly, Diaphragm clutch assembly, Constant mesh Gear box, synchromesh gear box, gear linkages, Propeller shaft, Universal Slip Joint, Rear axle assembly, Differential assembly. The trainee will perform overhauling of light vehicle Chassis units, adhering to the specifications and tolerances for the vehicle and the manufacturer's approved overhauling methods, Standard repair methods, health and safety requirements etc. the trainee will learn how to overhaul, repair and service Shackle, Leaf spring, Front axle, Front and rear suspension, Steering Gearbox- worm and roller type, Steering Gearbox- Reticulating ball type, Master cylinder, Tandem Master cylinder, Front and rear brake, Wheel cylinder, Vacuum booster, Air servo unit, Air tank (reservoir) etc. The trainee will also learn to carry out wheel balancing and Wheel Alignment to within acceptable limits.

The trainee will troubleshoot vehicle Engine components and ascertain repair. Plan & service Electronic Control Unit and check functionality. Diagnose & rectify the defects in vehicle to ensure functionality of vehicle. The trainees will carry out overhauling of charging system. Also the trainee will perform overhauling of starting system. Troubleshoot electrical components of vehicle and ascertain repair. Overhaul, service and testing Vehicle Air Conditioning system, its parts and check functionality. The trainee will also learn to drive vehicle following Traffic Regulations and maintenance of good road conduct.

2.1 GENERAL

The Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of vocational training courses catering to the need of different sectors of economy/ Labour market. The vocational training programmes are delivered under the aegis of Directorate General of Training (DGT). Craftsman Training Scheme (CTS) with variants and Apprenticeship Training Scheme (ATS) are two pioneer schemes of DGT for strengthening vocational training.

Mechanic Motor Vehicle Trade under CTS is one of the popular courses delivered nationwide through a network of ITIs. The course is of two years duration. It mainly consists of Domain area and Core area. In the Domain area (Trade Theory & Practical) imparts professional skills and knowledge, while Core area (Workshop Calculation and science, Engineering Drawing and Employability Skills) imparts requisite core skill, knowledge and life skills. After passing out of the training programme, the trainee is awarded National Trade Certificate (NTC) by DGT which is recognized worldwide.

Candidates broadly need to demonstrate that they are able to:

- Read & interpret technical parameters/documentation, plan and organize work processes, identify necessary materials and tools;
- Perform task with due consideration to safety rules, accident prevention regulations and environmental protection stipulations;
- Apply professional knowledge, core skills & employability skills while performing the job and machining work.
- Check the job/components as per drawing for functioning identify and rectify errors in job/components.
- Document the technical parameters related to the task undertaken.

2.2 PROGRESSION PATHWAYS:

- Can join industry as Technician and will progress further as Senior Technician, Supervisor and can rise up to the level of Manager.
- Can become Entrepreneur in the related field.
- Can appear in 10+2 examination through National Institute of Open Schooling (NIOS) for acquiring higher secondary certificate and can go further for General/Technical education.
- Can take admission in diploma course in notified branches of Engineering by lateral entry.

- Can join Apprenticeship programme in different types of industries leading to National Apprenticeship certificate (NAC).
- Can join Crafts Instructor Training Scheme (CITS) in the trade for becoming instructor in ITIs.
- Can join Advanced Diploma (Vocational) courses under DGT as applicable.

2.3 COURSE STRUCTURE:

Table below depicts the distribution of training hours across various course elements during a period of two years:

S No.	S No. Course Element		Notional Training Hours	
		1 st Year 2 nd Year		
1	Professional Skill (Trade Practical)	1000	1000	
2	Professional Knowledge (Trade Theory)	280	360	
3	Workshop Calculation & Science	80	80	
4	Engineering Drawing	80	80	
5	Employability Skills	160	80	
	Total	1600	1600	

2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course through formative assessment and at the end of the training programme through summative assessment as notified by the DGT from time to time.

- a) The Continuous Assessment (Internal) during the period of training will be done by **Formative Assessment Method** by testing for assessment criteria listed against learning outcomes. The training institute have to maintain individual *trainee portfolio* as detailed in assessment guideline. The marks of internal assessment will be as per the formative assessment template provided on www.bharatskills.gov.in
- b) The final assessment will be in the form of summative assessment. The All India Trade Test for awarding NTC will be conducted by controller of examinations, DGT as per the guideline. The pattern and marking structure is being notified by DGT India from time to time. **The learning outcome and assessment criteria will be basis for setting question papers for final assessment.**The examiner during final examination will also checkindividual trainee's profile as detailed in assessment guideline before giving marks for practical examination.

2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Trade Practical and Formative assessment is 60% & for all other subjects is 33%. There will be no Grace marks.

2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking assessment. Due consideration should be given while assessing for teamwork, avoidance/reduction of scrap/wastage and disposal of scrap/wastage as per procedure, behavioral attitude, sensitivity to environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based, comprising the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work

Evidences and records of internal (Formative) assessments are to be preserved until forthcoming examination for audit and verification by examination body. The following marking pattern to be adopted while assessing:

Performance Level	Evidence
(a) Weightage in the range of 60 -75% to be allo	tted during assessment
For performance in this grade, the candidate	Demonstration of good skill in the use of
should produce work which demonstrates	hand tools, machine tools and workshop
attainment of an acceptable standard of	equipment.
craftsmanship with occasional guidance, and	60-70% accuracyachieved while undertaking
due regard for safety procedures and	different work with those demanded by the

nanic wotor venicle (wiwv)	
practices.	component/job.
	 A fairly good level of neatness and
	consistency in the finish.

(b) Weightage in the range of 75%-90% to be allotted during assessment

For this grade, a candidate should produce work which demonstrates attainment of a reasonable standard of craftsmanship, with little guidance, and regard for safety procedures and practices.

 Good skill levels in the use of hand tools, machine tools and workshop equipment.

Occasional support in completing

project/job.

- 70-80% accuracyachieved while undertaking different work with those demanded by the component/job.
- A good level of neatness and consistency in the finish.
- Little support in completing the project/job.

(c) Weightage in the range of above 90% to be allotted during assessment

For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.

- High skill levels in the use of hand tools, machine tools and workshop equipment.
- Above 80% accuracyachieved while undertaking different work with those demanded by the component/job.
- A high level of neatness and consistency in the finish.
- Minimal or no support in completing the project.

Mechanic, Automobile; repairs overhauls and services motor vehicles to keep them in good running condition. Examines vehicle to ascertain nature and location of defects either by running engine or driving vehicle on road. Dismantles partially or completely defective unit or parts of vehicle such as engine, gear box, rear axle, front axle, steering assembly, radiator, etc. according to nature of repairs to be done, using hoist, jack, pullers, hand tools and other devices. Measures essential parts like cylinder, bores piston, sizes crank pins etc. using gauges, micrometre and other precision tools and gets cylinders re-bored, liners filled, valve seats refaced, bearings re-metalled etc. as necessary. Repairs or overhauls and assembles engine by performing tasks similar to those of Mechanic Petrol or Diesel Engine such as replacing defective parts, scrapping bearings, grinding valves, setting timing, cleaning injectors, tuning carburettor etc. according to maker's specification. Replaces or repairs defective parts of gear box, rear axle, steering mechanism etc. and sets them right ensuring correct alignment, clearance, meshing of gears, specified movements and operations. Relines and builds brakes, sets wheel alignment, adjust, steering, clutch, hand brakes etc. fits new or repaired accessories and body parts, makes electrical connection, and performs other tasks to effect repairs. Lubricates, joints, tightens loose parts, tests performance of vehicle by driving on road and makes necessary adjustments to attain desired standard. May assemble complete vehicle from finished components.

Maintenance Technician-Service Workshop; maintains and manages tools and equipment used in the workshop.

Auto Service Technician-Mechanic; is responsible for the repair and routine servicing and maintenance (including electrical and mechanical aggregates) of vehicles.

Mechanic Motor Vehicle; repairs overhauls and services motor vehicles to keep them in good running condition.

Fitter Automobile; attends to minor repairs to motor vehicles under guidance of Mechanic Automobile. Receives instructions from Mechanic, Automobile about tasks to attend. Jacks up vehicle to required height for repair in convenient position where necessary. Removes nuts and bolts to dismantle parts such as water pump assembly, fuel pumps assembly, distributor, carburettor, sparking plugs, starter motors, generator, steering gear, brakes, clutch, transmission and suspension systems, etc. Grinds valve and decarbonises cylinder head under guidance of mechanic and changes oil of engines and transmission system. Tightens loose parts, lubricates joints, does minor repairs, replacements and adjustments and performs simple fitting operations such as filing, chipping, grinding etc. May work in workshops or garage. May drive vehicle on road.

May be designated as Service Mechanic if engaged in cleaning, polishing, oiling and greasing vehicles and do minor routine adjustments as included in servicing.

Motor Vehicle Mechanics, Other; perform number of routine and low skilled tasks in repairing and overhauling motor vehicles such as removing mudguards, bonnets etc. to facilitate working, adjusting alternator and fan belt, assist in bleeding

of brakes, draining gear box and oil pump, removing and resetting road spring, etc., and are designated as Motor Mechanic Helper, or Garage Boy according to nature of work done.

Reference NCO-2015:

7231.0100 – Mechanic, Automobile

7231.0101 – Maintenance Technician – ServiceWorkshop

7231.0107 – Auto Service Technician – Mechanic

7231.0400 - Fitter Automobile

7231.9900 - Motor Vehicle Mechanics, Other

4. GENERAL INFORMATION

Name of the Trade	Mechanic Motor Vehicle
Trade Code	DGT/1008
NCO - 2015	7231.9900, 7231.0100, 7231.0101, 7231.0107, 7231.0400
NSQF Level	Level – 5
Duration of Craftsmen Training	Two years (3200 Hours)
Entry Qualification	Passed 10 th Class examination with Science and Mathematics or its equivalent
Minimum Age	14 years as on first day of academic session.
Eligibility for PwD	LD, LC, DW, AA, LV, DEAF
Unit Strength (No. Of Students)	24 (There is no separate provision of supernumerary seats)
Space Norms	210 Sq. m (Including Parking)
Power Norms	4.8 KW
Instructors Qualification for	
1. Mechanic Motor Vehicle Trade	B.Voc/Degree in Automobile/ Mechanical Engineering from AICTE/UGC recognized Engineering College/ university with one-year experience in the relevant field. OR 03 years Diploma in Automobile/ Mechanical Engineering from AICTE recognized board of technical education or relevant Advanced Diploma (Vocational) from DGT with two years' experience in the relevant field. OR NTC/NAC passed in the trade of "Mechanic Motor Vehicle" with three years' experience in the relevant field. Essential Qualification: Relevant National Craft Instructor Certificate (NCIC) in any of the variants under DGT. Must Possess valid LMV driving License. NOTE: - Out of two Instructors required for the unit of 2(1+1), one

	must have Degree/Diploma and other must have NTC/NAC qualifications. However, both of them must possess NCIC in any of its variants.
2. Workshop Calculation & Science	B.Voc/Degree in Engineering from AICTE/UGC recognized Engineering College/ university with one-year experience in the relevant field. OR O3 years Diploma in Engineering from AICTE recognized board of technical education or relevant Advanced Diploma (Vocational) from DGT with two years' experience in the relevant field. OR NTC/ NAC in any one of the engineering trades with three years' experience. Essential Qualification: National Craft Instructor Certificate (NCIC) in relevant trade OR NCIC in RoDA or any of its variants under DGT
3. Engineering Drawing	B.Voc/Degree in Engineering from AICTE/UGC recognized Engineering College/ university with one-year experience in the relevant field. OR 03 years Diploma in Engineering from AICTE recognized board of technical education or relevantAdvanced Diploma (Vocational) from DGT with two years' experience in the relevant field. OR NTC/ NAC in any one of the Mechanical groups (Gr-I) trades categorized under Engg. Drawing'/ D'man Mechanical / D'man Civil' with three years' experience. Essential Qualification: National Craft Instructor Certificate (NCIC) in relevant trade OR NCIC in RoDA / D'man (Mech /civil) or any of its variants under DGT.
4. Employability Skill	MBA/ BBA / Any Graduate/ Diploma in any discipline with Two years' experience with short term ToT Course in Employability Skills from DGT institutes. (Must have studied English/ Communication Skills and Basic Computer at 12th / Diploma level and above)

	OR
	Existing Social Studies Instructors in ITIs with short term ToT
	Course in Employability Skills from DGT institutes.
5. Minimum Age for	21 Years
Instructor	
List of Tools and Equipment	As per Annexure – I

Distribution of training on Hourly basis: (Indicative only)

Year	Total Hours/We ek	Trade Practical	Trade Theory	Work shop Cal. &Sc.	Engg. Drawing	Employability Skills
1 st	40 Hours	25 Hours	7 Hours	2 Hours	2 Hours	4 Hours
2 nd	40 Hours	25 Hours	9 Hours	2 Hours	2 Hours	2 Hours

Learning outcomes are a reflection of total competencies of a trainee and assessment will be carried out as per the assessment criteria.

5.1LEARNING OUTCOMES (TRADE SPECIFIC)

FIRST YEAR:

- 1. Check & perform Measuring & marking by using various Measuring & Marking tools(Vernier Calliper, Micrometer, Telescope gauges, Dial bore gauges, Dial indicators, straightedge, feeler gauge, thread pitch gauge, vacuum gauge, tire pressure guage) following safety precautions.
- 2. Plan & perform basic fastening & fitting operation by using correct hand tools, Machine tools & equipments.
- 3. Trace and Test all Electrical& Electronic components & circuits and assemble circuit to ensure functionality of system.
- 4. Check & Interpret Vehicle Specification data and VIN and Select & operate various Service Station Equipments.
- 5. Dismantle & assemble of Engine from vehicle (LMV/HMV) along with other accessories.
- 6. Overhaul Engine and check functionality.
- 7. Trace, Test & Repair Cooling and Lubrication System of engine.
- 8. Trace & Test Intake and Exhaust system of engine.
- 9. Service Fuel System and check proper functionality.
- 10. Test Engine Performance and set idling speed.
- 11. Monitor emission of vehicle and execute different operation to obtain optimum pollution as per emission norms.
- 12. Carryout overhauling of Alternator and Starter Motor.
- 13. Diagnose & rectify the defects in LMV/HMV to ensure functionality of vehicle.

SECOND YEAR:

- 14. Plan & perform maintenance, diagnosis and servicing of transmission system.
- 15. Plan & perform maintenance, diagnosis and servicing of Vehicle Control System
- 16. Troubleshoot vehicle Engine components and ascertain repair
- 17. Plan & service Electronic Control Unit and check functionality.
- 18. Diagnose & rectify the defects in vehicle to ensure functionality of vehicle.
- 19. Carryout overhauling of charging system.
- 20. Carryout overhauling of starting system.
- 21. Troubleshoot electrical components of vehicle and ascertain repair.

- 22. Overhaul, service and testing Vehicle Air Conditioning system, its parts and check functionality.
- 23. Drive vehicle following Traffic Regulations and maintenance of good road conduct

	LEARNING OUTCOMES	ASSESSMENT CRITERIA
		FIRSTYEAR
1.	Check & perform Measuring & marking by using various Measuring & Marking tools (Vernier Caliper, Micrometer, Telescope gauges, Dial bore gauges, Dial indicators, straightedge, feeler gauge, thread pitch gauge, vacuum gauge, tire pressure gauge.)following safety precautions.	Plan the working principles of measuring instruments and special tools required for auto workshop. Select, care and use of measuring instrument. Set up the measured value with workshop manual and quality concepts and proper safety. Carry out decision on whether to replace or not.
2.	Plan & perform basic fastening & fitting operation by using correct hand tools, Machine tools & equipment.	Describe the purpose, use of auto hand tools. List the safety rules for hand tools. Select the correct tool for the job. Set up the tacked pieces in specific position. Joint components by Brazing, Soldering, Riveting as per given drawing. Produce components by different operation (Drilling, Reaming, Taping, Dieting)
3.	Trace and Test all Electrical & Electronic components & circuits and assemble circuit to ensure functionality of system.	Plan and prepare as per procedure and safety methods of soldering the cable ends using an electric soldering iron. Use crimping tool to make a circuit joint. Explain the connection of an ammeter, voltmeter, and ohmmeter in a circuit trouble shooting. State open & short circuit, series and parallel circuits. Verify DC series & parallel circuits and its characteristics. Check out the open and short circuits in the lighting circuits. Verify ohm's law and measure resistance using rheostat. Check the voltage drop in the auto electrical system by using multimeter.

	Trace the auto electrical components by using vehicle wiring circuits. Check the condition of the solenoid switch in the starting system. Determine the forward to reverse resistance ratio of diodes and identify good / bad diodes. Perform battery charging.
4. Check & Interpret Vehicle Specification data & VIN and Select & operate various Service Station Equipments.	Identify of different type of vehicle. Identify the different vehicle specification data and information. Demonstrate the garage, service station different equipment.
5. Dismantle & assemble of Engine from vehicle (LMV/HMV) along with other accessories.	Demonstrate safe handling of lifting equipments. Identify the problems in the vehicle. Perform the periodic testing of lifting equipments. Judge whether this Engine needs overhaul or not. Perform dispose the used engine oil and safety measures in disposal. Perform on vehicle Engine Tests to analyze need of Overall. Perform sequencing and identifying parts at the time of dismantle and assemble.
6. Overhaul Engine and check functionality.	Remove accessories fitted to the engine prior to engine removal. Align the left hook of the crane with engine lifting bracket. Remove the engine mountings. Remove the engine from vehicle. Mount the engine on the vehicle. Align and fit the gear box to the engine. Refit the accessories to the engine. Set the Timing of the Engine. Overhaul Valve Actuating Mechanism (Hydraulic latch actuator).
7. Trace, Test & Repair Cooling and Lubrication System of	Overhauling of Radiator/ Recovery tank water pump, oil pump, air cleaner.

	Check the engine oil pressure at different r.p.ms.
	Overhaul the Oil Pump.
	Set Checking &Top up coolant, Draining & refilling coolant.
	Testing cooling system pressure & Thermostat.
	Cleaning & reverse flushing. Overhauling water pump and refitting and repairs to oil flow pipe lines and unions if necessary.
	Check proper functioning of radiator fan (Mechanical/ Electrical / viscous / belt drive).
0.7	
8. Trace &Test Intake and Exhaust system of engine.	Overhauling of manifolds, silencer and tail pipe, air compressor, air exhauster and inspect parts of air exhauster, turbo charger from vehicle.
	Overhauling of air filter, clean & refit air cooler, fuel filter assembly and replace filter elements.
	Remove and replace EGR valve, Use Smoke meter to test emission from engine.
9. Service Fuel System and check	Overhauling fuel feed pump, fuel injector pump.
proper functionality.	Test injectors, check the injection timing by the spill cut off method.
10. Test Engine Performance and	Start engine, adjust idling speed.
set idling speed.	Overhaul the Governor (Mechanical & Pneumatic).
	Set the Engine Timing.
	Check performance of engine off load.
	Servicing of the cylinder and replace the defective parts.
11. Monitor emission of vehicle	Check vacuum pump for its functioning.
and execute different	Perform troubleshooting of EVAP Canister.
operation to obtain optimum	Inspect PCV hose, inspect PCV Valve and check for vacuum.
pollution as per emission	Clean the PCV valve and replace if required.
norms.	Inspect & clean EGR.
12. Carryout overhauling of	Trace the circuit from the alternator to the battery.
Alternator and Starter Motor.	Perform servicing of starter motor.
	Perform servicing of alternator and test its performance.

	Chook halt condition and replace as you require
	Check belt condition and replace as per requirement.
13 Diamaga S markifully defe	Displayed displayed the weekless of survive and state of the
13. Diagnose & rectify the defects	Plan and diagnose the problem if engine not starting.
in LMV/HMV to ensure	Diagnose high fuel consumption and engine overheating.
functionality of vehicle.	Diagnose for excessive oil consumption and low/high engine
	oil pressure.
	Diagnose for abnormal engine noise.
	Diagnose for engine's poor performance.
	SECOND YEAR
14. Plan & perform maintenance, diagnosis and servicing of transmission system.	Select and wear suitable personal protective equipment and use vehicle coverings throughout all removal and replacement activities.
	Work in compliance with standard safety norms.
	Carry out their removal and replacement activities by reviewing: Vehicle technical data
	Removal and replacement procedure
	Legal requirements
	Use technical information to support the overhauling of light vehicle/Heavy Vehicle transmission units.
	Select tools and materials for the job and make this available for use in a timely manner.
	Use the tools and equipment in the way specified by manufacturers to overhaul light vehicle/Heavy vehicle transmission unit.
	Ascertain the assessment of the dismantled unit identifies accurately its condition and suitability for overhaul.
	Conduct appropriate and target oriented discussions with higher authority and within the team, where an overhaul is uneconomic or unsatisfactory to perform.
	Perform all overhauling of light vehicle transmission units, adhering to the specifications and tolerances for the vehicle and following:
	a. Manufacturer's approved overhauling methods
	b. Standard repair methods
	c. health and safety requirements.
	d. workplace procedures

Range:

- a. Gear box
- b. Single plate clutch assembly
- c. Diaphragm clutch assembly
- d. Constant mesh Gear box
- e. synchromesh gear box
- f. Gear linkages
- g. Propeller shaft
- h. Universal Slip Joint
- i. Rear axle assembly
- j. Differential assembly

Use testing methods that comply with the manufacturer's requirements.

Adjust the unit's components correctly where necessary to ensure that they operate to meet the vehicle operating requirements.

15. Plan & perform maintenance, diagnosis and servicing of Vehicle Control System.

Select and wear suitable personal protective equipment and use vehicle coverings throughout all removal and replacement activities.

Work in compliance with standard safety norms.

Use technical information to support the overhauling of light vehicle/Heavy Vehicle steering and suspension system.

Carryout their removal and replacement activities by reviewing:

- Vehicle technical data
- Removal and replacement procedures
- Legal requirements

Use the tools and equipment in the way specified by manufacturers to overhaul steering, suspension and braking system.

Ascertain the assessment of the dismantled unit identifies accurately its condition and suitability for overhaul.

Perform all overhauling of light vehicle Chassis units, adhering to the specifications and tolerances for the vehicle and following:

- a. The manufacturer's approved overhauling methods
- b. Standard repair methods

	or meaning and out of meaning
	d. workplace procedures
	Range:
	a) Shackle
	b) Leaf spring
	c) Front axle
	d) Front and rear suspension
	e) Steering Gearbox- worm and roller type
	f) Steering Gearbox- Reticulating ball type
	g) Master cylinder
	h) Tandem Master cylinder
	i) Front and rear brake
	j) Wheel cylinder
	k) Vacuum booster
	I) Air servo unit
	m) Air tank (reservoir)
	n) Brake valve
	o) Hand/parking brake
	p) Single brake chamber
	g) Slack adjuster
	r) Disc brake
	Carry out wheel balancing to within acceptable limits.
	Carryout the recommended trouble shooting procedure as
	per Workshop manual for a) Abnormal wear b) Wheel
	wobbling c) Poor self centering d) Hard steering.
	Rectify the defects following the vehicle manufacture
	standard procedure.
	Use testing methods that comply with the manufacturer's
	requirements.
	Adjust the unit's components correctly where necessary to
	ensure that they operate to meet the vehicle operating
	requirements.
	Ensure replaced driveline units and assemblies conform to
	the vehicle operating specification and any legal
	the vehicle operating specification and any legal
	requirements
	requirements.
16 Troubleshoot vehicle Engine	
16. Troubleshoot vehicle Engine components and ascertain	requirements. Carryout the recommended trouble shooting procedure as per Workshop manual for:

c. health and safety requirements.

repair.	a) Engine Not starting – Mechanical & Electrical		
	causes,		
	b) Engine Noise.		
	c) High fuel consumption,		
	d) Engine overheating,		
	e) Low Power Generation,		
	f) Excessive oil consumption,		
	g) Low/High Engine Oil Pressure,		
	Rectify the defects following the vehicle manufacture		
	standard procedure.		
17. Plan & service Electronic Control System and check	Identify the MPFI components by its name and Locate the MPFI Components in the given engine.		
functionality.	Ascertain and select tools and materials for the job and make		
	this available for use in a timely manner.		
	Plan work in compliance with standard safety norms.		
	Connect the scan tool to the Data link connector of given		
	engine.		
	Read the Error code.		
	Test the reference voltage and continuity of the circuit as per		
	vehicle wiring circuit.		
	Repair/Replace the defective part or wiring.		
	Erase the error memory.		
	Start and check the engine.		
18. Diagnose & rectify the defects	Ascertain and select tools and materials for the job and make		
in vehicle to ensure	this available for use in a timely manner.		
functionality of vehicle.	Plan work in compliance with standard safety norms.		
	Troubleshoot the Engine for Engine Crank but will not start.		
	Check Ignition Timing of Engine.		
	Check the function of Mal Indication Lamp (MIL), Oil pressure		
	warning light, charge indication light, Temperature warning		
	light/gauge, Seat belt warning light, ABS warning light,		
	Parking light, fuel level gauge.		
	Test the various sensors fitted on the given engine using		
	Test the various sensors fitted on the given engine using		

19. Carryout overhauling of charging system.	Check Charging system for proper functioning as per manufacturer guidelines. Check alternator for proper functioning. Remove alternator from the vehicle. Overhaul and check alternator for proper function. Refit Alternator to the vehicle and check for functioning.	
20. Carryout overhauling of starting system.	Check starting system for proper functioning as per manufacturer guidelines. Check starter for proper functioning. Remove starter from the vehicle. Overhaul and check starter for proper function. Refit starter to the vehicle and check for functioning.	
21. Troubleshoot electrical components of vehicle and ascertain repair.	Ascertain and select tools and materials for the job and make this available for use in a timely manner. Plan work in compliance with standard safety norms. Carryout the diagnostic procedure for the following troubles in the electrical accessories: - No horn, poor horn, continuous horn. - Wiper and washer no operation, continuous operation, Intermittent operation. - Power window no operation. - Power Door lock no operation. - Immobilizer system and keyless entry no operation. - Trouble(Error indication) in Automatic seat belt system. - Trouble(Error indication) in Air bag system	
22. Overhaul, service and testing Vehicle Air Conditioning system, its parts and check functionality.	Ascertain and select tools and materials for the job and make this available for use in a timely manner. Plan work in compliance with standard safety norms. Carryout the diagnostic procedure for the following troubles: - No cooling - Intermittent cooling - Insufficient cooling	

	 Abnormal noise from compressor, magnetic clutch, condenser, evaporator and blower motor High pressure gauge-pressure High and low Low pressure gauge-pressure High and low 		
23. Drive vehicle following Traffic	Follow the Road safety measures, Traffic rules and statutory		
Regulations and maintenance	regulations.		
of good road conduct.	Demonstrate straight Driving.		
	Demonstrate Driving through lanes and curves.		
	Demonstrate Reverse Driving.		
	Demonstrate Overtaking of another vehicle.		
	Demonstrate Driving through sand and wet surface.		
	Demonstrate Parking and Diagonal parking.		

SYLLABUS - MECHANIC MOTOR VEHICLE **FIRST YEAR Professional Skills Reference Learning Professional Knowledge** Duration (Trade Practical) Outcome (Trade Theory) With Indicative Hours Check & perform 1. Familiarisation Admission & introduction to Professional with Skill 175 Hrs; institute, Job the trade: Measuring & marking by using opportunities in the Introduction to the Course Professional sector, various Measuring automobile duration, course content. Knowledge & Machinery used in Trade. Marking study of the syllabus. 49 Hrs tools(Vernier Types of work done by the General rule pertaining to Calliper, students in the shop floor. the Institute, facilities Micrometer, (10Hrs) available-Hostel, Telescope 2. Importance of Recreation, Medical and gauges, maintenance Library working hours and Dial bore gauges, and cleanliness of Workshop. Dial indicators, time table straightedge, feeler Occupational (10Hrs) Safety & 3. Interaction with health gauge, thread pitch Health centre and fire service Importance of Safety and vacuum gauge, gauge, tire pressure station to provide demo general Precautions to be following on First aid and Fire observed in the shop. Basic gauge.) safety precautions safety, Use οf first aid, safety signs - for fire extinguishers.(10 Hrs) Danger, Warning, caution & 4. Practice operation personal safety message. different workshop Safe handling of Fuel equipment. (10 Hrs) Spillage, Fire extinguishers 5. Demonstrate Energy used for different types of saving Tips of ITI fire. Safe disposal of toxic electricity Usage.(10Hrs) dust, safe handling and Periodic testing of lifting equipment, Authorization of Moving & road testing vehicles. Energy conservation-Definition, Energy

Conservation Opportunities (ECOs)-Minor **ECos** and Medium ECOs, Major ECOs), Safety disposal of Used engine oil, Electrical safety tips. Introduction to road safety **Automotive** emissions.(14 hrs) Hand & Power Tools:-Marking scheme, Marking material-chalk, Prussian blue. Cleaning tools- Scraper, wire brush, Emery paper, Description, care and use of Surface plates, steel rule, measuring tape, try square. Callipers-inside and outside. Dividers, surface gauges, scriber, punches-prick punch, centre punch, pin punch, hollow punch, number and letter punch. Chisel-flat, cross-cut. Hammer- ball pein, lump, mallet. Screw drivers-blade screwdriver, Phillips screw driver, Ratchet screwdriver. Allen key, bench vice & Cclamps, Spannersring spanner, open end spanner & the combination spanner, universal adjustable open end spanner. Sockets & Pliers accessories, Combination pliers, multi grip, long nose, flat-nose,

Nippers or pincer pliers, Side

- 6. Practice using all marking aids, like steel rule with spring callipers, dividers, scriber, punches, Chisel etc.(15 Hrs)
- 7. Layout a work piece- for line, circle, arcs and circles. (5 Hrs)
- 8. Practice to measure a wheel base of a vehicle with measuring tape. (10 Hrs)
- Practice to measure valve spring tension using spring tension tester. (10 Hrs)
- 10. Practice to remove wheel lug nuts with use of an air impact wrench.(15 Hrs)
- 11. Practice on General workshop tools & power tools. (20 Hrs)

cutters, Tin snips, Circlips pliers, external circlips pliers. Air impact wrench, ratchet, wrenches- Torque wrenches, pipe wrenches, car jet washers Pipe flaring & cutting tool, pullers-Gear and bearing. (21 hrs) Systems of measurement, 12. Carryout Measuring practice on Cam height, Description, care & use of -Micrometers- Outside and Camshaft Journal dia, crankshaft journal depth micrometer. dia. Micrometer Valve stem dia, piston adjustments, diameter, and piston pin Vernier callipers, Telescope with dia outside gauges, Dial bore gauges, Micrometers. (5 Hrs) Dial indicators, straightedge, feeler gauge, thread pitch 13. Carryout Measuring practice on the height of gauge, vacuum gauge, tire the rotor of an oil pump pressure gauge. (17 hrs) from the surface of the housing or any other auto component measurement with depth micrometer. (5 Hrs) 14. Carryout Measuring practice on valve spring free length. (5 Hrs) 15. Carryout Measuring practice on cylinder bore, Connecting rod bore, inside diameter (ID) of a camshaft bearing with Telescope gauges. (5 Hrs) 16. Carryout Measuring practice on cylinder bore for taper and out-ofround with Dial bore gauges.(5 Hrs)

		practice to measure wear on crankshaft end play, crankshaft run out, and valve guide with dial indicator. (5 Hrs) 18. Perform Measuring practice to check the flatness of the cylinder head is warped or twisted with straightedge is used with a feeler gauge. (5 Hrs) 19. Perform Measuring practice to check the end gap of a piston ring, piston-to-cylinder wall clearance with feeler gauge. (5 Hrs) 20. Practice to check engine manifold vacuum with vacuum gauge. (5 Hrs) 21. Practice to check the air pressure inside the vehicle tires is maintained at the recommended setting. (5 Hrs)	
Professional Skill 50 Hrs; Professional Knowledge 14 Hrs	Plan & perform basic fastening & fitting operation by using correct hand tools, Machine tools &equipments.	22. Practice on Marking and Drilling clear and Blind Holes, Sharpening of Twist Drills Safety precautions to be observed while using a drilling machine. (20 Hrs) 23. Practice on Tapping a Clear and Blind Hole, Selection of tape drill Size, use of Lubrication, Use of	Drilling machine - Description and study of Bench type Drilling machine, Portable electrical Drilling machine, drill holding devices, Work Holding devices, Drill bits. Taps and Dies: Hand Taps and wrenches, Calculation of Tap drill sizes for metric and inch taps. Different type of

		stud extractor. (20 Hrs) 24. Practice Cutting Threads on a Bolt/ Stud. Adjustment of two piece Die, Reaming a hole/ Bush to suit the given pin/ shaft, scraping a given machined surface. (10 Hrs)	Die and Die stock. Screw extractors. Hand Reamers – Different Type of hand reamers, Drill size for reaming, Lapping, Lapping abrasives, type of Laps. (14 hrs)
Professional Skill 175 Hrs; Professional Knowledge 49 Hrs	Trace and Test all Electrical & Electronic components & circuits and assemble circuit to ensure functionality of system.	25. Practice in joining wires using soldering Iron, Construction of simple electrical circuits, measuring of current, voltage and resistance using digital multimeter, practice continuity test for fuses, jumper wires, fusible links and circuit	Power, Energy. Voltmeter, ammeter, Ohmmeter Mulitmeter, Conductors & insulators, Wires, Shielding, Length vs. resistance,
		fusible links, and circuit breakers. (50 Hrs) 26. Diagnose series, parallel, series-parallel circuits using Ohm's law, Check electrical circuit with a test lamp, perform voltage drop test in circuits using multimeter, measure current flow using multimeter /ammeter, use of service manual wiring diagram for	Fuses & circuit breakers, Ballast resistor, Stripping wire insulation, cable colour codes and sizes, Resistors in Series circuits , Parallel
		troubleshooting. (25 Hrs) 27. Carryout Cleaning and topping up of a lead acid battery, Testing battery with hydrometer. (15 Hrs) 28. Connect battery to a charger for battery	Description of Chemical effects, Batteries & cells, Lead acid batteries & Stay Maintenance Free (SMF) batteries, Magnetic effects, Heating effects, Thermo-

Inspecting electric energy, Thermisters, charging, testing a battery after Thermo couples, charging, Measure and Electrochemical energy, Diagnose the cause(s) of Photo-voltaic energy, Piezoexcessive Key-off battery electric energy, drain (parasitic draw) and Electromagnetic induction, corrective do Relays, Solenoids, Primary & action. Testing of relay and Secondary windings, solenoids and its circuit. Transformers, stator and (20 Hrs). rotor coils. **Basic** 29. Test diode for electronics: functionality. (10 Hrs) of Semi Description 30. Practice checking conductors, Solid state Transistors. (5 Hrs) devices- Diodes, Transistors, Thyristors, Uni Junction Transistors (UJT), Metal Oxide Field Effect Transistors (MOSFETs). (14 hrs) 31. Identify Hydraulic Introduction to Hydraulics & and pneumatic components **Pneumatics:** - Definition of used in vehicle. Pascal law, pressure, Force, (20 Hrs) viscosity. Description, 32. Trace hydraulic circuit on symbols and application in hydraulic jack, hydraulic automobile of Gear pumppower steering, and Brake Internal & External. circuit. (20 Hrs) single acting, double acting 33. Identify components in Air & Double ended cylinder; brake systems. (10 Hrs) Directional control valves-2/2, 3/2, 4/2, 4/3 way valve, Pressure relief valve, Non return valve, Flow control valve used in automobile. Pneumatic Symbols, Description and function of air Reciprocating Compressor. Function of Air service unit (FRL-Filter,

Regulator & Lubricator). (14

			hrs)
Professional Skill 50 Hrs; Professional Knowledge 14 Hrs	Check & Interpret Vehicle Specification data & VIN and Select & operate various Service Station Equipments.	34. Carryout Identification of different type of Vehicle. (20 Hrs) 35. Perform Demonstration of vehicle specification data(20 Hrs) 36. Perform Identification of vehicle information Number (VIN). Demonstration of Garage, Service station equipments Vehicle hoists – Two post and four post hoist, Engine hoists, Jacks, Stands. (10 Hrs)	Auto Industry - History, leading manufacturers, development in automobile industry, trends, new product. Brief about Ministry of Road transport & Highways, The Automotive Research Association of India (ARAI), National Automotive Testing and R&D Infrastructure Project (NATRIP), & Automobile Association. Definition: - Classification of vehicles on the basis of load as per central motor vehicle rule, wheels, final drive, and fuel used, axles, position of engine and steering transmission, body and load. Brief description and uses of Vehicle hoists — Two post and four post hoist, Engine hoists, Jacks, Stands.(14 hrs)
Professional Skill 50 Hrs; Professional Knowledge 14 Hrs	Dismantle & assemble of Engine from vehicle (LMV/HMV) along with other accessories.	 37. Identify parts in a Diesel engine of LMV/ HMV. (07 Hrs) 38. Identify parts in a Petrol engine of LMV/ HMV. (07Hrs) 39. Practice on starting and stopping of engines. (07 Hrs) 40. Observe and report the reading of Tachometer, Odometer, temp and Fuel gauge under ideal and on 	Introduction to Engine: Description of internal & external combustion engines, Classification of IC engines, Principle & working of 2&4-stroke diesel engine (Compression ignition Engine (C.I)), Principle of Spark Ignition Engine(SI), differentiate between 2-stroke and 4 stroke, C.I engine and S.I Engine, Direct injection and Indirect

load condition. (07 Hrs) injection, Technical terms 41. Practice identification of used in engine, Engine difference in components specification. Study of of Petrol and Diesel various gauges/instrument Engines. (07 Hrs) on a dash board of a vehicle-42. Practice on dismantling Speedometer, Tachometer, engine of LMV/HMV as Odometer and Fuel gauge, per procedure. (15 Hrs) and Indicators such as gearshift position, Seat belt warning light, Parking-brakeengagement warning light and an Engine-malfunction light. Different type of starting and stopping method of Diesel Engine Procedure for dismantling of diesel engine from a vehicle. Petrol Engine Basics: 4-stroke spark-ignition engines-4-stroke Basic principles. Spark-ignition engine components- Basic engine components, Engine cams & camshaft, Engine power transfer, Scavenging, Counter weights, Piston components. Intake & exhaust systems -Electronic fuel injection systems, Exhaust systems. Intake system components, Air cleaners, Carburettor air cleaners, EFI air cleaners, Intake manifolds, Intake air

> heating. Gasoline

Fuel

Systems:

			Description of Gasoline fuel,
			Gasoline fuel characteristics,
			Controlling fuel burn,
			Stoichiometric ratio, Air
			density, Fuel supply system,
			Pressure & vacuum.(14 hrs)
Professional	Overhaul Engine	43. Overhauling of cylinder	Engine Components:
Skill 225 Hrs;	and check	head assembly, Use of	Description and
5 6	functionality.	service manual for	Constructional feature of
Professional		clearance and other	Cylinder head, Importance of
Knowledge		parameters, Practice on	Cylinder head design, Type
63 Hrs		removing rocker arm	of Petrol and Diesel
		assembly manifolds. (10	combustion chambers,
		Hrs)	Effect on size of Intake &
		44. Practice on removing the	exhaust passages, Head
		valves and its parts from	gaskets. Importance of
		the cylinder head,	Turbulence
		cleaning. Inspection of	Valves & Valve Trains-
		cylinder head and	Description and Function of
		manifold surfaces for	Engine Valves, different
		warping, cracks and	types, materials, Type of
		flatness. (10 Hrs)	valve operating mechanism,
		45. Perform Checking valve	Importance of Valve seats,
		seats & valve guide –	and Valve seats inserts in
		Replacing the valve if	cylinder heads, importance
		necessary check valve	of Valve rotation, Valve stem
		overlap. Testing leaks of	oil seals, size of Intake
		valve seats for leakage –	valves, Valve trains, Valve-
		Dismantle rocker shaft	
		assembly -clean & check	Variable valve timing.
		rocker shaft-and levers,	Description of Camshafts &
		for wear and cracks and	drives , Description of
		reassemble. (10 Hrs)	Overhead camshaft,
		46. Check valve springs,	importance of Cam lobes,
		tappets, push rods, tappet	Timing belts & chains,
		screws and valve stem	Timing belts & tensioners.
		cap. (10 Hrs)	(14 hrs)
		47. Reassemble valve parts in	

sequence, refit cylinder head and manifold & rocker arm assembly, adjustable valve clearances, starting engine after adjustments. (10 Hrs) 48. Practice Overhauling piston and connecting rod Assembly. Use of service manual for clearance and other parameters(5 Hrs) 49. Practice on removing oil sump and oil pump — clean the sump. Practice on removing the big end bearing, connecting rod with the piston. (5 Hrs) 50. Practice on removing the piston rings; Dismantle the piston and connecting rod. Check the side clearance of piston rings in the piston groove & lands for wear. Check piston skirt and crown for damage and scuffing, clean oil holes. (5 Hrs) 51. Measure -the piston ring close gap in the cylinder,	Description & functions of different types of pistons, piston rings and piston pins and materials. Used recommended clearances for the rings and its necessity precautions while fitting rings, common troubles and remedy. Compression ratio. Description & function of connecting rod, importance of big- end split obliquely, Materials used for connecting rods big end & main bearings. Shells piston pins and locking methods of piston pins. (07 hrs)
in the piston groove & lands for wear. Check piston skirt and crown for damage and scuffing, clean oil holes. (5 Hrs) 51. Measure -the piston ring	pins and locking methods of
close gap in the cylinder, clearance between the piston and the liner, clearance between crank pin and the connecting rod big end bearing. (5 Hrs) 52. Check connecting rod for bend and twist. Assemble	

the piston and connecting rod assembly. (5 Hrs) 53. Carryout Overhauling of crankshaft by referring service manual for clearance and other parameters. (20 Hrs) 54. Practice on removing damper pulley, timing gear/timing chain, flywheel, main bearing caps, bearing shells and crankshaft from engine checking oil retainer and thrust surfaces for wear. (20 Hrs) 55. Measure crank shaft journal for wear, taper and ovality, Checking	Description and function of Crank shaft, camshaft, Engine bearings-classification and location — materials used & composition of bearing materials- Shell bearing and their advantages- special bearings material for diesel engine application bearing failure & its causes-care & maintenance. Crank-shaft balancing, Firing order of the engine. (14 hrs)
crankshaft for fillet radii, bend & twist. (10 Hrs) 56. Perform Checking of flywheel and mounting flanges, spigot, bearing. (10 Hrs) 57. Check vibration damper for defects, Practice on removing cam shaft from engine block, Check for bend & twist of camshaft. (10 Hrs) 58. Perform Inspection of cam lobe, camshaft journals and bearings and measure cam lobe lift. (10 Hrs) 59. Practice Fixing bearing inserts in cylinder block & cap check nip and spread	Description and function of the fly wheel and vibration damper. Crank case & oil pump, gears timing mark, Chain sprockets, chain tensioner etc. Function of clutch & coupling units attached to flywheel. (14 hrs)

		clearance & oil holes &	
		locating lugs fix crank	
		shaft on block-torque	
		bolts - check end play	
		remove shaft - check	
		seating, repeat similarly	
		for connecting rod and	
		Check seating and refit.	
		(20 Hrs)	
		60. Practice Cleaning and	Description of Cylinder
		Checking of cylinder	block, Cylinder block
		blocks. (10 Hrs)	construction, and Different
		61. Check cylinder blocks	type of Cylinder sleeves
		Surface flatness visually.	(liner). (14 hrs)
		(10 Hrs)	, , ,
		62. Measure cylinder bore	
		for taper & ovality, clean	
		oil gallery passage and oil	
		pipe line, Bore - descale	
		water passages. (10 Hrs)	
		63. Practice Removing	
		cylinder liners from scrap	
		cylinder block, practice in	
		measuring and refitting	
		new liners as per maker's	
		recommendations	
		precautions while fitting	
		new liners. (20 Hrs)	
Professional	Trace, Test & Repair	64. Practice on Checking	Need for Cooling systems,
Skill 50 Hrs;	Cooling and	&Top up coolant, (5 Hrs)	Heat transfer method,
	Lubrication System	65. Drain & refill coolant,	Boiling point & pressure,
Professional	of engine.	Checking / replacing a	Centrifugal force, Vehicle
Knowledge		coolant hose, Testing	coolant properties and
14 Hrs		cooling system pressure,	recommended change of
		Practice on Removing &	interval, Different type of
		replacing radiator/	cooling systems, Basic
		thermostat. (5 Hrs)	cooling system
		66. Inspect the radiator	components- Radiator,

		pressure cap, testing of thermostat. (5 Hrs) 67. Perform Cleaning & reverse flushing. (5 Hrs) 68. Carryout overhauling water pump and refitting. (10 Hrs) 69. Practice on Checking engine oil, Draining engine oil, Replacing oil filter, Refilling engine oil. (10 Hrs) 70. Carryout Overhauling of oil pump, oil coolers, air cleaners and air filters and adjust oil pressure relief valves, repairs to oil flow pipe lines and unions if necessary. (10 Hrs)	Coolant hoses, Water pump, Cooling system thermostat, Cooling fans, Temperature indicators, Radiator pressure cap, Recovery system, Thermo-switch. Need for lubrication system, Functions of oil, Viscosity and its grade as per SAE, Oil additives, Synthetic oils, The lubrication system, Splash system, Pressure system, Corrosion/noise reduction in the lubrication system. Lubrication system components - Description and function of Sump, Oil collection pan, Oil tank, Pickup tube, different type of Oil pump & Oil filters Oil pressure relief valve, Spurt holes & galleries, Oil indicators, Oil cooler. (14 hrs)
Professional Skill 50 Hrs;	Trace & Test Intake and Exhaust system	71. Carryout Dismantling & assembling of	Intake system components- Description and function of
Professional Knowledge 14 Hrs	of engine.	turbocharger check for axial clearance as per service manual. (15 Hrs) 72. Check Exhaust system for rubber mounting for damage, deterioration and out of position; for leakage, loose connection, dent and damage. (10 Hrs) 73. Practice on Exhaust manifold removal and	Air cleaners, Different type air cleaner, Description of Intake manifolds and material, Exhaust system components- Description and function of Exhaust manifold, Exhaust pipe, Extractors, Mufflers-Reactive, absorptive, Combination., Catalytic converters, Flexible

		installation. (13 Hrs)	connections, Ceramic
		74. Practice on Catalytic	coatings, Back-pressure,
		converter removal and	Electronic mufflers (14 hrs)
		installation. (12 Hrs)	,
Professional	Service Fuel System	75. Practice Testing of MPFI	Diesel Fuel Systems-
Skill 50 Hrs;	and check proper	components and	Description and function of
38111 30 1113,	functionality.	replacement if necessary.	Diesel fuel injection, fuel
Professional	runctionanty.	(10 Hrs)	characteristics, concept of
Knowledge		76. Check delivery from fuel	Quiet diesel technology &
14 Hrs		Pump. Replacing a fuel	Clean diesel technology.
		, , ,	
		filter. (10 Hrs)	,
		77. Bleed air from the fuel	components – Description
		lines, Servicing primary &	and function of Diesel tanks
		secondary filters. (15 Hrs)	& lines, Diesel fuel filters,
		78. Remove a fuel injection	water separator, Lift pump,
		pump from an engine-	Plunger pump, Priming
		refit the pump to the	pump,
		engine re- set timing - fill	Inline injection pump,
		lubricating-oil start and	Distributor-type injection
		adjust slow speed of the	pump, Diesel injectors, Glow
		engine. (15 Hrs)	plugs, Cummins & Detroit
			Diesel injection. Electronic
			Diesel control- Electronic
			Diesel control systems,
			Common Rail Diesel
			Injection (CRDI) system,
			Hydraulically actuated
			electronically controlled unit
			injector (HEUI) diesel
			injection system. Sensors,
			actuators and ECU
			(Electronic Control Unit)
			used in Diesel Engines.(14
			hrs)
Professional	Test Engine	79. Reassemble all parts of	Engine assembly procedure
Skill 50 Hrs;	Performance and	engine in correct	with aid of special tools and
5 6	set idling speed.	Sequence and torque all	gauges used for engine
Professional		bolts and nuts as per	assembling. Introduction to

Knowledge		workshop manual of the	Gas Turbine, Comparison of
14 Hrs		engine. (10 Hrs)	single and two stage turbine
		80. Perform Engine	engine, Different between
		component assembly	gas turbine and Diesel
		procedures- Testing	Engine.(14 hrs)
		,	Liigiile.(14 iii3)
		•	
		checking idle speed,	
		Removing & replacing a	
		cam belt, Inspecting &	
		adjusting an engine drive	
		belt, Replacing an engine	
		drive belt. (15 Hrs)	
		81. Practice on Start engine	
		adjust idling speed and	
		damping device in	
		pneumatic governor and	
		venture control unit	
		checking (5 Hrs)	
		82. Test Performance of	
		engine with off load	
		adjusting timings. (5 Hrs)	
		83. Start engine- adjusting	
		idle speed of the engine	
		fitted with mechanical	
		governor checking- high	
		speed operation of the	
		engine. (5 Hrs)	
		84. Check performance for	
		missing cylinder by	
		isolating defective	
		injectors and test-	
		dismantle and replace	
		defective parts and	
		reassemble and refit back	
		to the engine (10 Hrs)	
Professional	Monitor emission of	85. Practice Monitoring	Emission Control:- Vehicle
Skill 25 Hrs;	vehicle and execute	emissions procedures by	emissions
ЗКIII 23 ПГS,		•	
	different operation	use of Engine gas analyser	Standards- Euro and Bharat

Professional Knowledge 07 Hrs	to obtain optimum pollution as per emission norms.	or Diesel smoke meter. (5 Hrs) 86. Checking & cleaning a Positive crank case ventilation (PCV) valve. Obtaining & interpreting scan tool data. (5 Hrs) 87. Perform Inspection of EVAP canister purge system by use of scan Tool. (5 Hrs) 88. Perform EGR /SCR Valve Removal and installation for inspection. (10Hrs)	II, III, IV, V Sources of emission, Combustion chamber design. Types of emissions: Characteristics and Effect of Hydrocarbons, Hydrocarbons in exhaust gases, Oxides of nitrogen, Particulates, Carbon monoxide, Carbon dioxide, Sulphur content in fuels Description of Evaporation emission control, Catalytic conversion, Closed loop, Crankcase emission control, Exhaust gas recirculation (EGR) valve, Controlling airfuel ratios, Charcoal storage devices. Diesel particulate
Professional	Carryout	89. Practice on removing	devices, Diesel particulate filter (DPF). Selective Catalytic Reduction (SCR), EGR VS SCR (07 hrs)
Skill 25 Hrs; Professional Knowledge 07 Hrs	Carryout overhauling of Alternator and Starter Motor.	89. Practice on removing alternator from vehicle dismantling, cleaning checking for defects, assembling and testing for motoring action of alternator & fitting to vehicles. (13 Hrs) 90. Practice on removing starter motor Vehicle and overhauling the starter motor, testing of starter motor (12 Hrs)	Description of charging circuit operation of alternators, regulator unit, ignition warning lamptroubles and remedy in charging system. Description of starter motor circuit, Constructional details of starter motor solenoid switches, common troubles and remedy in starter circuit. (07 hrs)
Professional Skill 25 Hrs;	Diagnose & rectify the defects in LMV/HMV to ensure	91. Practice on troubleshooting in LMV/HMV for Engine Not	Troubleshooting : Causes and remedy for Engine Not starting –

Professional	functionality of	starting – Mechanical &	Mechanical &
Knowledge	vehicle.	Electrical causes, High	Electrical causes, High fuel
07 Hrs		fuel consumption, Engine	consumption, Engine
		overheating, Low Power	overheating, Low Power
		Generation, Excessive oil	Generation, Excessive oil
		consumption, Low/High	consumption, Low/High
		Engine Oil Pressure,	Engine Oil Pressure, Engine
		Engine Noise. (25 Hrs)	Noise. (07 hrs)

Project Work/ Industrial Visit: -

Broad Area:

- a) Testing of engine after assembling.
- b) Intake and Exhaust System.
- c) Emission control
- d) Charging system
- e) Vehicle Troubleshooting

SYLLABUS FOR MECHANIC MOTOR VEHICLE TRADE					
	SECOND YEAR				
Duration	Reference Learning Outcome	Professional Skills (Trade Practical) With Indicative Hours		Professional Knowledge (Trade Theory)	
Professional	Plan & perform	92.	Identify different major	Introduction: Study of	
Skill 200Hrs;	maintenance,		components of Heavy	different major components	
	diagnosis and		vehicle and their function	& assemblies of heavy	
Professional	servicing of		& placement study of	vehicle, and different make	
Knowledge	transmission		different make	(indigenous). Name plate-	
72 Hrs	system		lorry/busin Institute with	constructional differences	
			different dealers or	and their merits. leading	
			organizations. (18 Hrs)	manufacturers in Heavy	
		93.	Practice on adjusting	vehicle Industry	
			clutch pedal play-	Clutches & Manual	
			removing gearbox and	Transmissions -Clutch	
			clutch assembly from	principles, Single-plate	
			Light & Heavy Vehicle.	clutches, Multi-plate	
			(09 Hrs)	clutches, Dual mass	
		94.	Perform Dismantling	flywheels, Operating	
			clutch assembly, cleaning	mechanisms Clutch	
			inspecting parts. (10 Hrs)	components- Pressure plate,	
		95.	Carryout Removing &	Driven/ center plate, Throw-	
			fitting of new pilot	out bearing.	
			bearing, removing &	Manual transmissions- Gear	
			fitting of ring gear in fly	ratios, Compound gear	
			wheel relining a clutch	trains, Gear selection,	
			plate, checking condition	Bearings, Oil seals & gaskets,	
			of flywheel and pressure	Brief about Automated	
			plate surface for	Manual Transmission (AMT)	
		0.0	reconditioning. (10 Hrs)	Gearbox layout &	
		96.	Perform Assembling of	operation-	
			pressure plate adjusting	Gearbox layouts, Transaxle	
			the fingers checking run	designs, Gearbox operation,	
			out of fly wheel and	Baulk-ring synchromesh unit,	
			aligning clutch assembly	Transaxle synchromesh unit.	

	with flywheel. (08 Hrs)	Gear shift mechanism. (27
97.	Perform Dismantling	hrs)
	cleaning and assembling	
	of gearshift mechanism	
	changing oil in gear box.	
	(10 Hrs)	
98.	Practice Dismantling a	
	synchromesh gear box,	
	cleaning, inspecting parts	
	replacing worn out	
	defective parts	
	assembling & testing for	
	correct performance	
	identifying noises from	
	gear boxes and	
	rectifying. (10 Hrs)	
99.	Practice on Removing	Final Drive & Drive Shafts -
	open type propeller shaft	Basic layouts
	from vehicle, Practice on	Front-wheel drive layout,
	removing universal	Rear-wheel drive layout,
	joints, cleaning replacing	Four-wheel drive layout, All-
	worn out parts, re-	wheel drive layout, 4WD v/s
	assembling & refitting to	AWD
	vehicle- and their	Front-wheel drive, Front-
	alignment, including	wheel drive shafts, Front-
	front wheel drive and all	wheel final drives, Front-
	wheel drive of LMV. (15	wheel differentials
	Hrs)	Rear-wheel drive- Propeller
100.	Practice on FWD	shaft, Type of Universal
	Driveshaft Removal and	joints, Type of Constant
	Replacement. (15	velocity Joints, Rear-wheel
	Hrs)	final drives, Salisbury axles,
101.	Practice on overhauling	Rear-wheel drive
	& inspection of rear axle.	differentials, Limited slip
	(15 Hrs)	differentials.
102.	Practice on overhauling	Four-wheel drive- Four-
	& inspection of	wheel drive shafts, Four-
	differential assembly. (15	wheel final drive, Four-wheel

Hrs)	drive transfer case,
103. Perform Trouble	Freewheeling hubs, Four-
shooting – causes and	wheel drive differentials
remedy for clutch slip,	All-wheel drive- four wheel
clutch noise, clutch	final drives,
binding, hard clutch,	All-wheel drive transfer case,
gearbox noise, gear slip,	Transfer case differential
rear axle noise, propeller	action. (27 hrs)
shaft noise, universal	
joint noise, differential	
noise. (15 Hrs)	
104. Identify Automatic	Automatic Transmissions -
transmission	Torque converters, Torque
components (5 Hrs)	converter principles, drive
105. Check automatic	plate, Converter operation,
transmission fluid and	Torque multiplication, Fluid
replace transmission	flow, Heat exchanger, Lock-
fluid & filter. (20 Hrs)	up converters, clutches.
106. Practice on oil pressure	Planetary gearing- Planetary
control cable play	gears, Simple planetary gear
adjustments, Inspection	sets, Compound planetary
of shift lever switch,	gear sets, Automatic
throttle position sensor,	
speed sensor and	Multi-disc clutches,
automatic transmission	
wiring harness coupler.	
(25 Hrs)	control Unit, Fully
	hydraulically controlled transmission, Electronic shift
	programs, Manual selection.
	Layout & operation for P,R,N&D (First & Second)
	Selector positions, Planetary
	gear set, High range power
	flow, Low range power flow
	Servos & clutches-Rear
	servo, Front servo, One way
	clutch, Multi-plate front
	1 31011, 1110111 1110111

			clutch, Clutch pack, Rear
			clutch.
			Hydraulic system & controls-
			Hydraulic system system
			components, Spool valves,
			Regulating or flow control
			valves, Control valves,
			Orifices
			Valve types & functions-
			Basic valve action, Regulator
			& control valves, Shift &
			governor valves
			Pressure regulation- The
			primary regulating valve,
			Line pressure variation,
			Modulator valve pressure,
			The governor, Governor
			pressure, Kick down
			pressure.
			Flow control- Gear position
			1, 1-2 shift valve, 2-3 shift
			valve assembly, The servo
			orifice control valve, 3-2 kick
			down
			Continuously variable
			transmission (C.V.T.) -
			Continuously variable
			transmission, Drive or
			reverse, The steel belt,
			Secondary pulley shaft. (18
			hrs)
Professional	Plan & perform	Following practical to be	Steering Systems: -
Skill 300Hrs;	maintenance,	Practiced On Light & Heavy	Description and function of
	diagnosis and	Vehicle:	Steering systems, Principles
Professional	servicing of Vehicle	107. Practice on removing the	of steering, Rack-and-pinion
Knowledge	Control System	drop arm, Check and	steering system,
108 Hrs		adjust the turning angle,	Recirculation ball & nut
		align the drop arm and	steering system, Four-wheel

steering wheel with the	steering systems, collapsible
front wheel. Check and	steering system.
correct toe-in. (10 Hrs)	Steering boxes & columns -
108. Practice on removing	Description and function of
steering wheel, steering	Steering columns, Rack-and-
gearbox. (10 Hrs)	pinion gearbox, Helix,
109. Inspect and overhaul	Variable ratio steering,
steering boxes, adjusting	Worm gearbox, Power
steering gear backlash,	Assisted steering, Steering
pre-load and adjust toe-	process, Flow-control valve,
in, toe-out, camber	Electric power assisted
angle, castor angle,	steering, Basic electric power
kingpin inclination and	steering operation
wheel run out. (10 Hrs)	Steering arms &
110. Check ⊤ up power	components- Forward
steering fluid, (5 Hrs)	control vehicle steering,
111. Carryout Pressure testing	Steering linkages,
a power steering system,	Joints, Bushes/bushings
Flushing a power steering	Wheel alignment
system, (10 Hrs)	fundamentals:- Basic
112. Carryout Inspecting &	principles of wheel
adjusting an engine drive	alignment, wheel base,
belt, (5 Hrs)	wheel track, king pin
113. Carryout Servicing a	inclination, Caster, Camber,
steering system, (10 Hrs)	Scrub radius, Toe-in & toe
114. Practice servicing wheel	out, Toe-out on turns,
bearings. (10 Hrs)	Turning radius, Thrust angle
115. Perform	¢relines. (27 hrs)
Troubleshooting- Causes	
and remedy for abnormal	
wear of tyre, wheel	
wobbling, poor self	
centring, hard steering,	
and vehicle pulling to	
one side. (5 Hrs)	
Following practical to be	Suspension Systems:-
Practiced On Light & Heavy	Principles of suspension,
Vehicle :	Suspension force, Unsprung

- 116. Practice on visual Inspection of chassis frame for crack, bent and twists. (15Hrs)
- 117. Carryout Overhauling and Inspection of shackle, leaf spring, front & rear suspension. (15 Hrs)
- 118. Practice on removing, inspection and assembling of shock absorber (15 Hrs)
- 119. Practice Lubricating a suspension system. (10 Hrs)
- shooting for Suspension system defects: Wheel hop, ride height (unequal and low), noises under operation, fluid leakage, excessive travel, bounce, worn dampers, worn joints/damaged linkages, vehicle "crabbing". (20 Hrs)

weight, Wheel unit location, Dampening. Types suspension-Suspension systems, Solid axle, Dead axle, Description, function and advantages of non independent suspension Independent suspension, independent Rear suspension, Rear-wheel drive independent suspension, electronically controlled air suspension (ECAS), Adaptive air suspension operation. Types of springs - Description and function of Coil springs, Leaf springs, Torsion bars, Rubber absorber springs. Shock types-Description and function of Hydraulic shock absorbers, Gas-pressurized shock absorbers, Loadadjustable shock absorbers, adjustable-rate Manual shock absorbers, Electronic adjustable-rate shock absorbers, Automatic loadadjustable shock absorbers Front suspension types & components-Mc person Strut suspension, Short/long arm suspension, Torsion bar suspension Rear suspension types & components-Rigid axle leaf spring suspension, Rigid axle coilspring suspension,

	Independent type
	suspension, Rigid non-drive
	suspension.(27 hrs)
121. Practice on removing	Wheels & Tyres-Wheel types
wheels from light &	& sizes Wheels, Rim sizes &
Heavy vehicle,	designations, Types of
dismantling tyres and	wheels
tubes checking puncture.	Tyre types & characteristics-
(10 Hrs)	Tyres, Radial ply tyres, Radial
122. Practice Assembling&	ply tyre sidewalls, Tyre
inflating tyres to correct	pressure monitoring
pressure. (10 Hrs)	systems, Run flat tyres,
123. Check & adjust tire	Space-saver tyres, Tyre
pressure by use of air or	distortion, Center of gravity.
by Nitrogen(10 Hrs)	Tyre construction-Tyre
124. Rotate the wheels in	construction, Types of tyre
vehicle minor repairs to	construction, Tyre materials,
wheels and tyres, wheel	Hysteresis, Tyre sizes &
balancing & alignment.	designations, Tyre
(10 Hrs)	information, Tyre tread
125. Check for tyre wear	designs, Tyre ratings for
patterns. (10 Hrs)	temperature & traction.
	Descriptions Tirewear
	Patterns and causes
	Nitrogen v/s atmospheric air
	in tyres (18 hrs)
126. Practice on Adjusting	, , , , , , , , , , , , , , , , , , ,
brake pedal play,	of braking, Drum & disc
Overhauling and	brakes, Lever/mechanical
inspection of tandem	advantage, Hydraulic
master cylinder	pressure & force, Brake pad,
assembly. (5 Hrs)	Regenerative braking.
127. Perform Overhauling and	Braking systems - Brake type
inspection of front and	- principles, Air brakes,
rear brake assembly,	Exhaust brakes, Electric
overhauling and	brakes, Parking brakes,
inspection of wheel	Engine brakes, Regenerative
cylinder assembly. (5 Hrs)	braking
, , , ,	

- 128. Bleed hydraulic brakes & Disk brakes. (10Hrs)
- 129. Carryout Overhauling and inspection of vacuum assisted brake assembly. (10 Hrs)
- 130. Perform Overhauling and inspection of disc brake. (10 Hrs)
- 131. Practice Adjusting Air brakes- repair to tank unit, air compressor, wheel brake adjuster-locating air leaks in the brake lines and rectifying general maintenance and care. (15 Hrs)
- 132. Perform Brakes service procedures-Checking adjusting brake fluid, brake fluid, Replacing Checking brake pads, Replacing brake pads, Removing & replacing a rotor, Replacing brake linings. Adjusting parking brake cable. (15 Hrs)
- 133. Carryout Trouble tracing in braking system of a heavy vehicle adjusting brakes and balancing all four wheel brakes, precautions to be observed while testing brakes points to be remember while preparing the vehicle for

Braking system components-Park brake system, Brake pedal, Brake lines, Brake fluid, Bleeding, Master cylinder, Divided systems, Tandem master cylinder, Power booster or brake unit, Hydraulic brake booster, Electro hydraulic braking (EHB), Applying brakes, Brake force, Brake light switch

Drum brakes & components
-Drum brake system, Drum
brake operation, Brake
linings & shoes, Back plate,
Wheel cylinders

Disc brakes & components Disc brake system, Disc
brake operation, Disc brake
rotors, Disc brake pads, Disc
brake callipers,
Proportioning valves,
Proportioning valve
operation, Brake friction
materials

Antilock braking system & components-ABS brake system, Antilock braking system operation, Principles of ABS braking, ABS master cylinder, Hydraulic control unit, Wheel speed sensors, ABS with EBD electronic control unit.

The construction and operation of heavy vehicle Anti-Slip Regulation /

		brake certificate. (15 Hrs)	Traction Control (ASR)
		134. Practice of maintaining of	system.
		ABS system. (15 Hrs)	Introduction to
			Electromagnetic retarder
			brake (EMR) and Engine
			exhaust brake.(36 hrs)
Professional	Troubleshoot	135. Perform Trouble	Licensing of drivers &
Skill 50Hrs;	vehicle Engine	shooting Practice with	conductors, Registration of
	components and	Heavy vehicle for Engine	vehicle, Traffic rules, Signals
Professional	ascertain repair.	Not starting –	& controls, Accidents,
Knowledge		Mechanical & Electrical	Causes & analysis,
18 Hrs		causes, High fuel	Responsibility of driver,
		consumption, Engine	Offences, penalties &
		overheating, Low Power	procedures, Different types
		Generation, Excessive oil	of forms, Government
		consumption, Low/High	administration structure,
		Engine Oil Pressure,	Personnel, Authorities &
		Engine Noise. (50 Hrs)	duties, Rules regarding
			construction of motor
			vehicles, Tax exemption &
			tax renewal, Insurance types
			& significance -
			Comprehensive
			Third party insurance, Duty
			of driver in case of accident
			(18 hrs)
Professional	Plan & service of	136. Carryout Identification of	Introduction to EFI Engine
Skill 100Hrs;	electronic control	Electronic control Unit.	Management - EFI operation
	system and check	(20 Hrs)	Modes of EFI, Electronic fuel
Professional	functionally.	137. Perform Set up for	injection, Idle speed control
Knowledge		testing, Testing of	systems, Feedback &
36 Hrs		Electronic Control Circuit.	looping, Cold start systems,
		(20 Hrs)	Air measurement, Air-flow
		138. Perform Identification of	monitoring, Variable intake
		various sensors installed	manifold system, Electrical
		in engine & it's	functions, EFI wiring diagram
		mounting. (20 Hrs)	Electronic control unit (ECU)
		139. Check instruments	- EFI system ECU, Electronic

		&Gauges on dash board&	control unit settings, Engine
		replace defective gauges.	speed limiting, Malfunction
		(20 Hrs)	indicator lamp.
		140. Test Temperature	Importance of Diagnostic
		sensor, Pressure senor,	Trouble Code (DTC) & its
		potentiometer, magnetic	general format. Use of scan
		induction sensor, cam	tool and retrievals of codes.
		shaft sensor, crankshaft	EFI sensors- Intake
		position sensor. (20 Hrs)	Temperature sensor, Mass
		position sensor. (20 ms)	airflow sensor, Manifold
			,
			absolute pressure sensor, Air
			vortex sensor, Fuel system
			sensor, Throttle position
			sensor, Exhaust gas oxygen
			sensor, Crank angle sensor,
			Hall effect voltage sensor.(36
Des Constant	D'	AAA Coordan Discourie	hrs)
Professional	Diagnose & rectify	141. Carryout Diagnosis-	Ignition principles and
Skill 50Hrs;	the defects in	Possible causes and	Faraday's laws, Primary and
5 (;)	vehicle to ensure	remedy for Engine	secondary winding of
Professional	functionality of	cranks, but will not or	transformer, Ignition
Knowledge	vehicle.	hard to start, Poor fuel	components, Spark plugs,
18 Hrs		economy or engine	Spark plug components,
		performance. (25 Hrs)	Vacuum & centrifugal units,
		142. Practice Checking	Plug firing voltage,
		ignition timing, Checking	Induction, Inductive system
			operation, Induction wiring,
		Identification and testing	Hall effect sensors, Hall
		of Hall Effect sensor,	effect operation, Optical
		Optical sensor. Tracing	type sensors
		and testing of sensor	Distributor less ignition
		circuits. (25Hrs)	systems, Insulated coils,
			Distributor less ignition
Des Contract	6	442 Charles	system timing. (18 hrs)
Professional	Carryout	143. Check charging system	Charging system- The
Skill 50Hrs;	overhauling of	for the cause of	purpose of Charging system,
5 6	charging system.	undercharge, No charge,	charging system
Professional		and over charge	components, charging

Knowledge		conditions. (10 Hrs) system circuit, Alternator
18 Hrs		144. Perform Removing & principles, Alternating
		replacing an alternator, current, Alternator
		Inspection of rotor for components, Rectification,
		ground, open circuit – Phase winding connections,
		field coil resistance, slip Rotor circuit, Voltage
		ring surface, Fan, regulation, System operating
		bearing. Inspection of voltage, High voltage
		stator for ground, open charging systems, Rotor,
		circuit, Inspection of Stator, Alternator end
		Drive end bearing frames, Slip ring & brush
		rotation, Rectifier, brush assembly, Rectifier
		length compare with assembly, Alternator cooling
		service manual. Slip ring fan. (18 hrs)
		surface. (10 Hrs)
		145. Practice Inspecting &
		adjusting an engine drive
		belt, Replacing an engine
		drive belt/ pulleys /
		Tensioner and their
		alignments. (10 Hrs)
		146. Carryout Trouble
		shooting, possible causes
		and remedy for warning
		lamp does not glow
		when ignition switch is
		on, Warning lamp glows
		dim when ignition switch
		is on, warning lamp 'on'
		while the alternator is
		running, Warning lamp
		glows 'dim' while the
		alternator is running,
		warning lamp flickers
		considerably. (20 Hrs)
Professional	Carryout	147. Remove starter motor Starting system- purpose of
Skill 50Hrs;	overhauling of	from vehicle, and starting system, Staring
		carryout Performance system components, Starter

Professional Knowledge 18 Hrs	starting system.	test for pull-in test, Hold- in test, pinion (plunger) return test, No-load performance test. (15 Hrs)	motor principles, study of starter control circuits. Starter motor construction, Starter magnet types, Starter motor engagement,
		148. Check Solenoid and test for Hold in coil open circuit, Armature test — Ground test, Open circuit test, pull-in coil open circuit test, field coil test. Inspect brush length wear as per service manual. (15 Hrs)	Commutation, Switching, solenoid construction.(18 hrs)
		149. Perform Trouble shooting, possible causes and remedy for starter motor not running, Starting motor running but too slow (small torque), staring motor running, but not cranking engine. Noise, starting motor does not stop running. Growler testing for rotors. (15 Hrs) 150. Check a starting system, Jump-start a vehicle. (5 Hrs)	
Professional Skill 50Hrs; Professional Knowledge 18 Hrs	Troubleshoot electrical components of vehicle and ascertain repair	151. Trace the light circuit - test bulbs, align head lamps, aiming headlights. Changing a headlight bulb, checking of a head light switch and to replace if faulty. (4 Hrs) 152. Perform Trouble shooting and remedy for	Lighting system, Lamps/light bulbs, Lamp/light bulb information, LED lighting, Headlights-description of standard sealed beam, halogen sealed beam, composite and High intensity discharge (HID) headlights. Headlight & dimmer circuits,

Headlight - headlight do
not light up, only one
headlight does not light
up, Only one beam ("Hi"
or "Lo") does not light. (4
Hrs)

- 153. Perform Trouble shooting and remedy for turn signal and hazard warning lights -Flash rate high or one side only flashes, No Flashing, flash rate low. (4 Hrs)
- 154. Perform Trouble shooting and remedy for clearance, tail and license plate lights All lights do not light up, some lights do not light up. (4 Hrs)
- 155. Perform Trouble shooting and remedy for Back-up light Back-up lights do not light up. (4 Hrs)
- shooting and remedy for
 Brake lights -Brake lights
 do not light up, Brake
 light stay on. (4 Hrs)
- 157. Perform Trouble shooting and remedy for fuel meter and fuel gauge unit Fuel meter shows no operation or incorrect operation. (4 Hrs)
- 158. Perform Trouble

Park & tail light circuits, Brake light circuits, turn signal circuit, Cornering lights, Fog lights circuit, interior lights- courtesy, reading and instrument panel lights, Smart lighting, Reverse lights (18 hrs)

shooting and remedy for Engine coolant Temp (ECT) meter and ECT Sensor – Engine coolant temp meter shows no operation or incorrect operation. (4 Hrs) 159. Perform Trouble shooting and remedy for oil pressure light - Oil pressure warning light does not light up when ignition switch is on at engine off. (4 Hrs) 160. Perform Trouble shooting and remedy for brake and parking brake warning light-**Brake** warning light does not light up when fluid flow level, Brake warning light does not light up when parking brake pull up, Brake warning lights stay on. (4 Hrs) 161. Perform Trouble shooting and remedy for interior light- Interior light do not light up. (5 Hrs) 162. Perform Trace the wiring circuit of traffic signal flashers light circuittracing defects in the

fuse bulb. (5 Hrs)

flasher circuits, replacing

Professional Skill 50Hrs;	Overhaul, service and testing Vehicle	163. Identify Air conditioning Heating V components, Conditioning	entilation Air (HVAC)
	Air Conditioning	Performance test on A/c legislation, \	/ehicle heating,
Professional	system, its parts	unit, (5 Hrs) ventilation	& cooling
Knowledge	and check	164. Check Charged state of systems,	Basic air-
18 Hrs	functionality.	refrigerant, Inspecting & conditioning	principles, Air-
		adjusting an engine drive conditioning	capacity, Air-
		belt, Replacing an engine conditioning	refrigerant,
		drive belt. (10 Hrs) Humidity D	escription and
		165. Check heating system, function of	Fixed orifice,
		Compressor rotation Control	devices,
		test, air Gap check, (5 Thermostation	expansion
		Hrs) valve syst	em, Thermal
		166. Perform Refrigerant expansion	valves, Air-
		recovery –evacuating – conditioning	compressors,
		charging of A/c system. Condensers	& evaporators,
		Replenishing compressor Receiver d	rier, Lines &
		oil level. Troubles hoses, TX val	ve construction,
		diagnose and remedy for Temperature	monitoring
		No cooling or warm air, thermostat,	Refrigerants,
		Cool air comes out only Pressure sw	itches, Heating
		intermittently, elements	
		Insufficient cooling, (20 Air-condition	ing ECU,
		Hrs) Ambient ai	r temperature
		167. Check abnormal noise sensor, So	ervo motors,
		from compressor, Electric se	ervo motors,
		Magnetic clutch, Automatic	climate control
		condenser, evaporator, sensors,	Evaporator
		Blower motor. (5 Hrs) temperature	sensor, Blower
			rol, Ventilation
		for High pressure gauge – systems. (18	-
		pressure high and low,	-
		Low pressure gauge for	
		pressure high and low. (5	
		Hrs)	
Professional	Troubleshoot	169. Perform Trouble Accessories:	Horn circuit,
Skill 50Hrs;	electrical		, power window
,	components of	Horn- No horn operation, components	and circuit.
	•	1 , 1 ,	

Professional	vehicle and	poor sound quality, horn	Power door lock circuit,
Knowledge	ascertain repair	sounds continuously and	automatic door lock circuit,
18 Hrs	·	to replace the horn if	remote keyless entry system
		faulty. (5 Hrs)	circuit, antitheft system,
		170. Remove and install wiper	immobilizer system.
		motors and wiper	Navigation system, Car radio
		switches. Checking &	and cassette player, car
		replacing wiper blades.	videos.
		(5 Hrs)	Description and function of
		171. Perform Trouble	Airbags, Seatbelt, Vehicle
		shooting and remedy for	safety systems, Crash
		windshield wiper and	sensors, Seat belt pre-
		washer - no operation,	tensioners, Tire pressure
		intermittent operation,	monitoring systems
		continuous operation,	Integrated communications,
		and wipers will not park.	Proximity sensors, Reflective
		(5 Hrs)	displays, Global positioning
		172. Diagnose causes for	satellites,
		improper operation of	Triangulation/trilateration,
		the windshield washer	Telematics. Networking &
		system and to replace	multiplexing.
		the pump if faulty. (6	Introduction to Hybrid &
		Hrs)	Electronic vehicle, Hydrogen
		173. Diagnose the power	fuel cell vehicle, Electrical &
		window system for – all	
		power window motors	hrs)
		do not operate, some	,
		switches do not operate.	
		(6 Hrs)	
		174. Diagnose the power door	
		lock control for – All	
		power door locks do not	
		operate, only one power	
		door lock not operate. (6	
		Hrs)	
		175. Diagnose for remote	
		keyless entry and	
		immobilizer system. (6	
		3,000 (0	

		Hrs) 176. Familiarization of car radio wiring and speaker circuits. (5 Hrs) 177. Diagnose automatic seat belt systems, Diagnose	
		air bag system and	
		service warnings. (6 Hrs)	
Professional	Drive vehicle	Driving Practice :	Locating vehicle information,
Skill 50Hrs;	following Traffic	178. Practice in straight	Obtaining & interpreting
	Regulations and	driving on wide roads.	scan tool data, Using a repair
Professional	maintenance of	(10 Hrs)	manual, Using a shop
Knowledge	good road conduct.	179. Driving through lanes	manual, Using an owner's
18 Hrs		and curves. (10 Hrs)	manual, Using a labour
		180. Practice in reversing. (10	guide, Using a parts
		Hrs)	program, Using a service
		181. Practice overtaking	information program (18
		another vehicle. (10 Hrs)	hrs)
		182. Practice in driving	,
		through sand and wet	
		surfaces. Practice in	
		parking and Diagonal	
		parking. (10 Hrs)	

Project Work/ Industrial Visit: -

Broad Area:

- a) MPFI and CRDI
- b) Engine scanning
- c) Starting system
- d) Lighting system
- e) HVAC
- f) Electrical accessories

SYLLABUS FOR CORE SKILLS

- 1. Workshop Calculation & Science (Common for two year course) (80 hrs + 80 hrs)
- 2. Engineering Drawing (Common for Group-I (Mechanical Trade Group)) (80 hrs + 80 hrs)
- 3. Employability Skills (Common for all CTS trades) (160 hrs + 80 hrs)

Learning outcomes, assessment criteria, syllabus and Tool List of Core Skills subjects which is common for a group of trades, provided separately in www.bharatskills.gov.in

LIST OF TOOLS AND EQUIPMENT					
	MECHANIC MOTOR VEHICLE (for Batch of 24 Candidates)				
S No.	Name of the Tools & Equipment	Specification	Quantity		
A. TRA	A. TRAINEES TOOL KIT				
1.	Allen Key set of 12 pieces	2mm to 14mm	6+1 nos.		
2.	Calliper inside with spring	15 cm	6+1 nos.		
3.	Callipers outside with spring	15 cm	6+1 nos.		
4.	Center Punch.	10 mm. Dia. x 100 mm	6+1 nos.		
5.	Dividers with spring	15 cm	6+1 nos.		
6.	Electrician Screw Driver	250mm	6+1 nos.		
7.	Hammer ball peen with handle	0.5 kg	6+1 nos.		
8.	Hands file for Second cut flat	20 cm.	6+1 nos.		
9.	Philips Screw Driver set of 5 pieces	100 mm to 300 mm	6+1 nos.		
10.	Pliers combination	20 cm.	6+1 nos.		
11.	Screw driver Blade	20cm.X 9mm.	6+1 nos.		
12.	Screw driver Blade	30 cm. X 9 mm.	6+1 nos.		
13.	Scriber	15 cm	6+1 nos.		
14.	Spanner D.E. set of 12 pieces	6mm to 32mm	6+1 nos.		
15.	Spanner, ring set of 12	6 to 32 mm. (metric)	6+1 nos.		
16.	Spanners socket with speed handle, T-bar, ratchet and universal set of 28 pieces with box	up to 32 mm	6+1 nos.		
17.	Steel rule	30 cm inch and metric	6+1 nos.		
18.	Steel tool box with lock and key (folding type)	400x200x150 mm	6+1 nos.		
19.	Wire cutter and stripper		6+1 nos.		
B. INSTRUMENTS AND GENERAL SHOP OUTFIT - For 2 (1+1) units no additional items are required					
TOOLS	S & EQUIPMENT				
20.	Adjustable spanner (pipe wrench)	350 mm	2 nos.		
21.	AC alternator slip ring puller	Variable	1 no.		

22.	Air blow gun with standard	Trigger operated with	1 no.
22.	accessories	interchangeable nozzles	
23.	Ammeter DC with external shunt	300A/ 60A	4 nos.
24.	Air ratchet	with standard accessories	2 nos.
25.	Air impact wrench	with standard accessories.	2 nos.
26.	Anvil with Stand	50 Kgs	1 no.
		For checking Dynamo, Alternator &	1 no.
27.	Auto Electrical test bench	Starter. With minimum2HP AC Motor,	
		Digital Voltmeter & ammeter.	
28.	Pattory charger	Capable to charge batteries from 5AH	2 nos.
20.	Battery –charger	– 150AH.	
29.	Blow Lamp	1 litre	2 nos.
30.	Belt Tensioner gauge		1 no.
		Minimum3 Phase 1HP 1400RPM	1 no.
	Car Jet washer with standard	Motor, 3 Reciprocating Plungers with	
31.		pressure regulator & gauge. 8m	
	accessories	Water hose with pressure adjustable	
		brass nozzle.	
32.	Chain Pulley Block capacity with	3 ton	1 no.
32.	tripod stand		
33.	Chisel flat	10 cm	4 nos.
34.	Circlip pliers Expanding and	15cm and 20cm	4 each
54.	contracting	13cm and 20cm	4 Cacii
35.	Cleaning tray	45x30 cm.	4 nos.
36.	Compression testing gauge	suitable for diesel Engine with	2 nos.
50.	compression testing gauge	standard accessories	2 1103.
37.	Copper bit soldering iron	0.25 Kg	2 nos.
38.	Cylinder bore gauge capacity	20 to 160 mm	1 no.
39.	Cylinder liner- Dry & wet liner,		1 each
33.	press fit &slidefit liner		(consumable)
40.	Depth micrometer	0-25mm	1 no.
	Dial gauge type 1 Gr. A (complete		
41.	with clamping devices and with		1 no.
	magnetic stand)		
42	Different type of Engine Bearing	10 Different types on heard	1.50+
42.	model	10 Different types on board	1 set
43.	Different type of piston model	5 Different Typeson board	1 set

45. Drill twist (various sizes) 1.5 mm to 8 mm by 0.5 mm 4 nos. 46. Electric Soldering Iron 230 V 60 watts 230 V 25 watts 2 each 47. Electric testing screw driver 4 nos. 48. Engineer's square Blade size 15 cm 4 nos. 49. Engineer's stethoscope 1 no. 50. Feeler gauge 20 blades (metric) 4 nos. 51. File flat , bastard 20 cm 4 nos. 52. File, half round, second cut 20 cm 4 nos. 53. File, Square second cut 20 cm 4 nos. 54. File, Square second cut 15 cm 4 nos. 55. File, triangular, second cut 15 cm 4 nos. 56. Files assorted sizes and types including safe edge file (20 No's) 2each 57. Flat File, beatard 35 cm 4 nos. 58. Flat File, bastard 35 cm 4 nos. 59. Fuel injection pump (Diesel) inline Hand operated Plunger Type 1 no. 61. Fuel injection pump VE pump / Distributor	44.	Drift Punch Copper	15 Cm	2 nos.
46. Electric Soldering Iron 230 V 60 watts 230 V 25 watts 2 each 47. Electric testing screw driver 4 nos. 4 nos. 4 nos. 6 Engineer's square 8 Blade size 15 cm 4 nos. 6 1 no.	45.	• • • • • • • • • • • • • • • • • • • •	1.5 mm to 8 mm by 0.5 mm	4 nos.
48. Engineer's square Blade size 15 cm 4 nos. 49. Engineers stethoscope 1 no. 50. Feeler gauge 20 blades (metric) 4 nos. 51. File flat , bastard 20 cm 4 nos. 52. File, half round ,second cut 20 cm 4 nos. 53. File, Square second cut 20 cm 4 nos. 54. File, Square round 30 cm 4 nos. 55. File, triangular , second cut 15 cm 4 nos. 56. Files assorted sizes and types including safe edge file (20 No's) 2each 57. Flat File , bastard 35 cm 4 nos. 58. Flat File , bastard 35 cm 4 nos. 59. Fuel feed pump for Diesel Hand operated Plunger Type 1 no. 60. inline Pneumatic Governor Type. 1 no. 61. Grease Gun feel rotary pump (DPC) pumps / along with special tools and accessories 1 no. 1 each 62. Grease Gun heavy duty trolley type 10 kg capacity 1 no. 64. Growler 2 nos. 2 nos. 65. Hacksaw frame adjustable 20-30 cm 12 nos. 66. Hammer Chipping 0.25 kg 5 nos. 67. Hammer Chipping 0.25 kg	46.		230 V 60 watts 230 V 25 watts	2 each
49. Engineers stethoscope 1 no. 50. Feeler gauge 20 blades (metric) 4 nos. 51. File flat , bastard 20 cm 4 nos. 52. File, half round ,second cut 20 cm 4 nos. 53. File, Square second cut 20 cm 4 nos. 54. File, Square round 30 cm 4 nos. 55. File, triangular , second cut 15 cm 4 nos. 56. Files assorted sizes and types including safe edge file (20 No's) 2each 57. Flat File , bastard 35 cm 4 nos. 58. Flat File , bastard 35 cm 4 nos. 59. Fuel feed pump for Diesel Hand operated Plunger Type 1 no. 60. inline Pneumatic Governor Type. 1 no. 61. Fuel injection pump VE pump / Distributor fuel rotary pump (DPC) pumps / along with special tools and accessories 1 no. 2 nos. 62. Grease Gun 2 nos. 2 nos. 63. type 10 kg capacity 1 no. 64. 		Intake air temperature sensor, TP	
		sensor etc.	
4.67		Manually operated with analogue	1 no.
167.	Spring tension tester	display.	
100	Trolley type portable air	Belt driven compressor along with	1 no.
168.	compressor	accessories	
	Working Condition of Diesel	Latest 4 Stroke 4 cylinder turbo	1 no.
	Engine – CRDI - 4 stroke Engine,	charged CRDI Engine, with ECM, BCM	
	Assembly with fault simulation	and sensors, wiring, fuel feed, cooling	
	board	system& instrument cluster. Fault	
169.		setting bank for minimum 8 sensors	
		and with diagnostic socket & Scanner	
		to read the faults. Engine	
		management circuit diagram to be	
		printed on the panel board.	
	Cut section of 4/6 cylinder diesel	6 cylinder diesel engine in working	1 no.
170.	engine in moving condition to	condition to show movement of	
	show movement of internal parts	internal parts	
	Diesel Engine six Cylinder in	Latest Diesel Engine CRDI 4 Stroke 6	1 no.
	running condition	Cylinders, Turbocharged Engine in	
171.		running condition. All sensors, wiring,	
		fuel feed, cooling system &	
		instrument cluster	
	Air bag simulator	Driver & Co Driver Air Bags, Seat belts	1 no.
172.		with front seats, crash sensors, air bag	
		ECU, Wiring Harness	
	Air conditioning service Unit (Car)	Suitable for R134A. Recovery with	1 no.
173.		vacuum pump, automatic drain &	
		stop after recovery.	
	Four stroke petrol engine with	Latest 4 Stroke 3/4 cylinder MPFI	1 no.
	CNG setup-working condition	Engine in running condition 800-	
		1600cc with ECM, BCM and all	
174.		sensors, wiring, fuel feed system,	
		cooling system& instrument cluster	
		with CNG/ Petrol selection switch on	
		Panel.	
175.	Heavy Commercial vehicle	Fitted with Latest 06 cylinder CRDI	1 no.
175.		diesel engine with all parts and	

		accessories. (without body on frame)	
	MPFI petrol engine with	Latest 4 Stroke 3/4 cylinder MPFI	1 no.
	swiveling stand along with special	Engine in running condition 800-	
176.	tools for dismantling and	1600cc with ECM, BCM and all	
	assembling	sensors, wiring, fuel feed system,	
	G	cooling system & instrument cluster.	
	Petrol Engine(2-stroke) Motor	Cut Section of 2 Stroke 2 W Engine	1 no.
	Cycle/Scooter along with special	Single Cylinder	
	tools and accessories (Optional)		
177.	* If not available in market video		
	demonstration may be used to		
	explain working.		
470	Transfer case with stand for	To show the gear mechanism of	1 no.
178.	Dismantling and assembly.	forward and reverse speeds.	
170	Tub of the man and a minimum and a bin a	220 V , Heater Capacity 400W x 2	1 no.
179.	Tube/ tyre vulcanizing machine	With different types of Die &Mould	
180.	Two post car lift – capacity 4000	Hydraulic Type with Mechanical Arms	1 no.
180.	kg	Locking.	
		Motorized Pneumatic Type, Rim	1 no.
181.	Tyre Changer Machine	clamping facility, and bead breaking	
		facility with air inflating device.	
		Flow analysis & spray pattern test,	1 no.
182.	Ultrasonic Injection cleaning	leak test, auto programming mode,	
102.	equipment	ultrasonic test with timer, Min 500 ML	
		Lit SS Tank with Lid, SS Stand.	
		Latest machine for four wheel	1 no.
	Wheel alignment Machine –	alignment. With connected camera,	
183.	computerized 3D (Optional)	IR Lighting Source min. 8mm,	
	comparenzed 32 (optional)	Reflector metal based, should work in	
		sunlight	
		For wheel balancing of LMV. Motor	1 no.
184.	Wheel balancing machine	0.5 HP Shaft Diameter min 38mm.	
==		Hardened flange assy. Balancing catch	
		nut of metal.	
	Working Condition of Petrol MPFI	Latest 4 Stroke 3/4 cylinder MPFI in	1 no.
185.	Engine Assembly with fault	running condition,800-1600cc with	
	simulation board	ECM, BCM and all sensors, wiring, fuel	

		feed system, cooling system &	
		instrument cluster with Fault setting	
		bank for minimum 6 sensors with	
		diagnostic socket&Scanner to read	
		the faults. Engine management circuit	
		diagram to be printed on the panel	
		board.	
CONSI	JMABLE		
186.	Battery		As required
187.	Brake fluids		As required
188.	Chalk, Prussian blue		As required
189.	Chemical compound for fasteners		As required
190.	Diesel		As required
191.	Different type gasket material		As required
192.	Different type of oil seal		As required
193.	Drill Twist (assorted)		As required
194.	Emery paper	36–60 grit , 80–120	As required
195.	Engine oil & Engine coolant		As required
196.	Gear oils		As required
197.	Hacksaw blade (consumable)		As required
100	Holders, lamp teakwood boards,		As required
198.	plug sockets,		
199.	Hydrometer		5 nos.
200.	Lapping abrasives		As required
201.	Petrol		As required
202.	Power steering oil		As required
203.	Radiator Coolants		As required
204.	Safety glasses		As required
205.	Steel wire Brush	50mmx150mm	5 nos.
CLASS	ROOM FURNITURE FOR TRADE THE	ORY	
206.	Instructor's table and Chair	Steel	1 set
207.	Students chairs with writing pads		24 nos.
208.	White board size	1200mm X 900 mm	1 no.
	Instructors lap top with latest		
209	configuration pre-loaded with		1 no.
209.	operating system and MS Office		1110.
	package.		

210.	LCD projector with screen.		1 no.
211	Trainees locker	6½ ' x 3' x 1½'	1 set each
211.	Trainees locker	0/2 X 3 X 1/2	(optional)
TOOLS	S & EQUIPMENTS FOR ENGINEERII	NG DRAWING HALL	
212.	Drawing board	(700mm x500 mm) IS: 1444	24 +1 nos.
213.	Mini drafter		24 +1 nos.
214.	Set square	celluloid 45° (250 X 1.5 mm)	24 +1 nos.
215.	Stool for trainees		24 +1 nos.
216.	Cupboard (big)		1 no.
217.	White Board	8ft. x 4ft.	1 no.
218.	Trainer's Table		1 no.
219.	Trainer's Chair		1 no.
220.	Draughtsman drawing		24 +1 nos.
220.	instrument box		
221.	Draughtsman table		24 +1 nos.

The DGT sincerely acknowledges contributions of the Industries, State Directorates, Trade Experts, Domain Experts, trainers of ITIs, NSTIs, faculties from universities and all others who contributed in revising the curriculum. Special acknowledgement is extended by DGT to the following expert members who had contributed immensely in this curriculum.

	List of Expert Members participated/ contributed for finalizing the course curriculum of Mechanic Motor Vehicle Trade at Chennai on 20.02.2018.
